**Subject:** West Ridge Permit Renewal

Hi, Gary. I'm working on getting the West Ridge permit renewal ready for tomorrow. There are four conditions to the permit. I wanted to advise you about the one relative to the Mexican Spotted Owl (MSO). The ground truthing needs to be done. They're nighttime surveys that are one survey per month at the ends of each month (four surveys per year needed). These surveys are no more than one survey prior to the end of April and at least three surveys prior to the end of July...that means soon...

Jerriann will be faxing you some MSO guidelines in the next day or so.

Just wanted to give you a heads up on this issue.

(One of the other permit conditions is to submit complete and adequate information for the Division Order by May 31, 2004.)

Any questions, please call Jerriann or me. Thanks. Pam
